

## Growing with Faith - Proposed Classroom Addition June 8, 2008

### Key Facts:

- The Proposed Classroom Addition will have 7 classrooms. Two of the classrooms are specifically designed for preschool aged youth and share an adjoining restroom. Four of the remaining five classrooms will be built with a collapsible wall so that we have the option of creating two large rooms for meetings.
- There is a surprisingly large grade change behind the existing building. To handle this change, the Proposed Classroom Addition will have three stairs and a ramp at the beginning of the hallway.
- A new 12' x 12' freestanding storage building is planned as well as a new playground.
- The County has decided that we will no longer be able to use our current well and so we are in discussions with the Town and County about connecting to the County water line.
- The construction documents should be completed in the next two weeks and then Lionberger will begin pricing the project. They have given a rough estimate of between \$150 and \$160 per square foot based on the current design.
- The Task Force hopes to present specific information on costs at the Brunch on July 13 and recommendations to on the project at a Congregational Meeting on Sunday, July 20 at 10 AM.
